Materials ordered to put kits together to get items into the shop. First items will be RepRapped parts, electronics, and hardware. I will add items as they come in and get put together. If you have any special requests, please feel free to send an email at support@gala-automation.com. A Credit card processing application also has to go through, need a way to pay right? :)

Once parts come in I'll be starting to make video tutorials on assembly as well. On a side note, I also offer web hosting services for very cheap. If you need a website, feel free to contact us. We can design websites for you as well.
